Special Call
April 23, 1980

A special call of Council was held on Wednesday, April 23, 1980 at 5:30 P.M. with Mayor Spiggle presiding.

Those members present were R. C. Hubbard, T. E. Conner, M. E. Gordon S. E. Carter, and T. W. Lawson.

Also present were W. R. Britton, Jr. Town Manager and B. H. Mullins, Clerk.

The meeting was opened with a prayer.

The Mayor opened the meeting as set forth in Section 2-344 of the Town Code and stated that the meeting was being held to discuss the Regional Sewerage Facility only.

Mr. Britton reported to Council that we have an up-date on the Sewerage Grant. Charlie Massie, State Water Control Board, has come up with the funds to do the Study. This money is only for an addendum. There is no money available for new and innovative ideas. Ten percent of the money is now available and we will get a letter of assurances for the other 90% but this money is not available now. This would be on an "if" basis, if Congress comes up with the money then we can have it.

The Chairman of the State Water Control has told us that they will not do anything if we will do something about our existing system, which, we do plan to do. If the Addendum was done and structured to show specifically remodeling and revamping our existing system, and if it is done this way, a "Step" with an eye towards refurbishing our system and running the line to put the sewerage in Falling Rivier, then when we can afford it, build the new Facility.

It was the general consensus of the Concil that we will refurbish our lines, up-grade our plant, cut the service area, and serve the people of the Town of Appomattox.

It was also general consensus of Town Council that we go to the State Water Control Board, explain that due to the economic conditions at this time, we can not build the new facility but will up-grade our present system. Then we can ask if they will go along with our plans instead of building the new plant.

Council also requested that the Referendum on the construction of the new Regional Sewerage Facility at an approximate costs of 2.4 million dollars, be on the Agenda for the next regular Council meeting.

The meeting adjourned at 6:45.

Special Call
April 28, 1980

Also present was W. R. Britton, Jr. Town Manager.

The Myoar called the meeting to order and read the "Call" to Council. See copy of attached call.

The only item for discussion is the connection of Virten, LTD., to the Town's water and sewerage systems.

Mayor Spiggle brought Council up-to-date on the latest developments. He stated that we had been in contact with Mr. Ed Ragland, State Director , of the Farmers Home Administration. He wants to know if water and sewer service is available to Virten, LTD.

After a lengthy discussion, Mr. Conner made the motion, seconded by Mr. Carter, to rescind the previous motion as made in the meeting of October 15, 1979, and any other, and all motions concerning the connection to The Town's sewer system for Virten, LTD.

Mr. Conner made the motion, seconded by Mr. Carter, to deny the connection to the Town of Appomattox's Sewer System, of Virten, LTD., or Greater Boston Development as it is known now and so authorize Mr. Britton to notify Greater Boston and the other concerned parties of Council's action.

Conner-aye Carter-aye Bass-aye Lawson-aye Hubbard-aye
Motion carried unanimously.

Council took this action due to the fact that we are in the process of rejecting the Sewerage Facility grant, the possibility of not building the New Facility, and with this in mind, the Town will have to look towards the priorities of the In-Town connections.

Mr. Britton reported that Mr. Kerr, our Attorney, has recommended that we do take the question of Sewerage to Bond Referendum and give the Town a better stand in case of Court Action against the Town.

It was the general consensus of Council that we want a 100% grant for revamping and refurbishing the Sewer System and/or the Regional Sewerage System or we don't want any Federal Funds at all. The Town will do the work themselves.

Those present were: Martin L. Webb, R. L. Bass, Marvin Mitchell, S. E. Carter, and H. W. Conner. Absent - R. C. Hubbard

Others present were: Steve Winters, Ray Bradbury, Patron and Winters, Bernard Procter, Powell Hughes, and James Marstin, James Foster and Ricky Tomlin, Valerie Beeman, and Bobbie Mullins, Clerk.

The meeting was opened with a prayer.

On a motion by Mr. Conner, seconded by Mr. Bass, Council approved the Agenda and all those present voting aye. Motion carried.

On a motion by Mr. Webb, seconded by Mr. Conner, Council approved the minutes of the September 14, 1987, meeting and all those present voting aye. Motion carried.

Mr. Steve Winters and Mr. Ray Bradbury approached Council with their plans to build a Shopping Center on Route 460 east of the Amoco Station. They expressed their concern on three points:

1. Water and Sewer Fees
2. Parking requirement required by Town's Zoning Ordinance
3. Permits - The length of time it would take to obtain them.

Council discussed this proposal and it was their general consensus that they will serve the "Center" as long as they come into the Corporate limits, install the water and sewer lines and deed them to the Town. The Shopping Center that begins construction of the water and sewer lines first can then assess the second "Center" a pro-rata share of the costs.

Mr. Jimmy Foster and Ricky Tomlin appeared before Council to discuss the problems they are having with Cable TV and hear the complaints the Council has about the Cable from our citizens.

Mr. Bernard Proctor appeared before Council to discuss the Sewer Project and its progress. He introduced his new Associates, Powell Hughes and James Marstin, who will be working closely with him on this project.

He also presented Council a copy of the results of the survey of the Allen L. Mayberry property. The survey clearly shows that we put the new sewer line within the existing easement for the sewer line that the Town has had for years.

James C. May & Associates, former Engineer for the Town, has presented Bernie a copy of his final statement for the design phase of the Sewer Project. His final bill will be for 77,100.00 of which the Town's share is 25% and this will be included in the next requisition.

The first item of business is the proposed shopping center. C. L. Lewis Construction Company seems to be at a standstill and Patron and Winters professes to ready to begin. Mayor Spiggle gave a brief synopsis of the preliminary meeting with C. L. Lewis Construction Company and he explained that we're at a point where we can do no more. The Town has gotten the County to agree to a Boundary Line Agreement, but it will still take time to obtain the necessary approval expecially as it has to go before the Justice Department.

He informed Council that we have just recently learned that Route 460, is a limited access road, which means you can not put the water and sewer lines in their right-of-way. Easements will have to be obtained. The Town can use the power of "Imminent Domain". This being we can file a suit, begin construction, and negotiate the costs down the road.

After a lengthy discussion between both developers, negotiations where at a standstill. The problem being neither developer was able to agree on a time schedule, or who would install the lines, and who would pay the pro-rata share.

On a motion by Mr. Conner, seconded by Mr. Carter, Council voted that they would provide water and sewer service for the proposed shopping centers, provided an agreement is signed that should the Boundary Line Adjustment fall through the "Centers" can not object to an annexation suit should the Town of Appomattox decide to file in the future or the developer will petition for a "friendly annexation suit."

At this time the developers went into conference to discuss the matter of who will install the water and sewer lines, and Town Council went on with the order of Business.

On a motion by Mr. Hubbard, seconded by Mr. Mitchell, Council voted to adopt the following resolution for the Rescue Squad regarding Aids.

> WHEREAS, the Appomattox County Rescue Squad performs vital and essential services to the Community on a voluntary basis; and
>
> WHEREAS, these humanitarian services are often performed under the conditions which can pose a danger to the health and safety of the members of the Rescue Squad; and
>
> WHEREAS, one of the hazards faced by these volunteers is rending such services to their fellow citizens is exposure to the infectious diseases; and
>
> WHEREAS, the Mayor of the Town of Appomattox and the Appomattox Town Council seek to minimize the risks taken by the volunteer Rescue Squad personnel; and

WHEREAS, a bill is presently pending in the United States House of Representatives which could reduce the danger to Rescue Squad personnel by requiring hospitals to notify emergency services workers when they have assisted an infectious person as well as through educational programs and free hepatitis B vaccinations of emergency services personnel;

NOW, THEREFORE, BE IT RESOLVED, that the Mayor of the Town of Appomattox and the Appomattox Town Council support the passage of that bill by the United States House of Representatives and the implementation of its provisions for the benefit of the members of the Appomattox County Rescue Squad.

BE IT FURTHER RESOLVED that copies of this resolution be forwarded to Congressman Henry Waxman, Chairman of the Health and Environment Subcommittee of the Energy and Commerce Committee, and to Congressman Dennis Eckart, sponsor of the bill, and members of the congressional delegation.

The meeting was reconvened at 9:47 P.M.

There was no agreement reached in the developers meeting.

Mayor Spiggle stated the Town's final position. We will have our Engineer Bernard C. Proctor, P.E., draw up specifications, design the system, get bids and then it will be up to the developers to either accept or reject these plans at this time. Mr. Proctor has stated he can get this work done in five days. An agreement will be drawn by the Town and offered to the developers concerning the Towns installation of utility services and the costs thereof.

Mayor Spiggle thanked the developers and reminded them they have five days to come to some agreement.

There being no further business to come before Council, the meeting adjourned.

Mrs. Sallie Burke, Agent, J. A. Burke & Co., Inc. appeared before Council to discuss Insurance Coverage in the Chinatown area. They will write the policy but will have to exclude the Area described as follows: "that area between the Norfolk & Sourthern Railroad and Lee-Grant Avenue bordered on the west by Burke Street and the Northwest by the Town of Appomattox Corporate limits.

Mayor Spiggle informed Council that the work has been completed on the project and it seems to be working fine at this time.

Mr. Rick Read and Paul Coffey, appeared before Town Council to follow up a meeting held previously concerning water and sewer to History Junction Shopping Center. They have four questions:

1. Calculation of what our portion of the costs to-date would be for everything that's been done and in place now. What is our fair share of that?

2. Estimate of the costs to extend the lines to serve our site.

3. Anticipated delivery date of these services.

4. What will be required of History Junction to get started.

Bernard Proctor, Town Engineer, answered the questions. The approximate costs would be $140,000.00 is their share of what is there already.

Question two is approximately 35,000 to 45,0000 for water service and sewer is still unknown due to answered not received from the Health Department.

Delivery Date of these services will depend upon the weather, but we think perhaps May 1st, 1989.

We will need the money up-front, before we being to construct service to their property.

Council discussed the need for all weather access road to the sewer pumps at the Shopping Center. We have received a quote from Laramore Construction Company of $14,978.00. The hold-up is whether we can get an easement from the land owner to put the road in.

Motion carried.

Citizen Participation:

Debra Chernault spoke to Council regarding the opposition of herself and the other Citizens present to the proposed construction of the 21 Apartments by J. E. Jamerson & Sons.

They also have certain questions regarding the proposal.

One - They understand there is a problem at the Sewer Plant with Inflow & Infiltration

Mr. Proctor, the Town's Engineer spoke regarding the citizens concerns. The Sewer Plant has the capacity to handle these apartments, and the I & I problem is being worked on by the town.

Two - Water pressure at the High School is a problem.

The Town doesn't have a pressure problem, it has two presssure zones. The 30,000 gallon tank elevation controls the pressure south of the Railroad.

Third - Will the conditions set on the Conditional Use/ Permit still be there ten years from now.

Mr. Spiggle stated that in his opinion the conditions would go with the property.

Johnny Cole spoke regarding the Traffic and Noise Problem

George Landem spoke regarding traffic and noise factor
Potential hazard to the School

Karen Johnson - Please reconsider your decision.

Mayor Spiggle reported having met with representatives of the Rescue Squad to discuss providing water and sewer service to the new Rescue Squad Building. Grinder Pump Station will have to be installed for solids for sewer. The water line could come up Lee Grant Avenue and across Route 634 and then bore under 460. This would provide the squad with a 2" line and in all probability we can do away with the 30,000 tank. The costs would be approximately $25,000.00.

On a motion by Mr. Carter, seconded by Mr. Conner, Council voted to pass the question of House Numbers to the Ordinance Committee and all those present voting aye. Motion carried.
